This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-3. (cancelled)

- 4. (previously presented) A glove comprising an elastomeric layer and an outer surface layer wherein the elastomeric layer comprises a polymer selected from the group consisting of natural rubber latex, synthetic polyisoprene, nitrile, and blends thereof, and wherein the outer surface layer comprises a mixture of silicone, ammonium salts of alkyl phosphates, and cetyl pyridinium chloride.
- 5. (original) A glove according to claim 4, wherein the glove is powder free.
- 6. (original) A glove according to claim 5, wherein the elastomeric layer is a natural rubber latex.
- 7. (original) A glove according to claim 5, wherein the elastomeric layer is polyisoprene.
- 8. (original) A glove according to claim 5, wherein the elastomeric layer is nitrile.
- 9. (original) A glove according to claim 5, wherein the elastomeric layer is a blend of two or more polymers selected from the group consisting of natural rubber latex, synthetic polyisoprene, and nitrile.

- 10. (original) A glove according to claim 4, wherein the silicone comprises polydimethylsiloxane.
- 11. (canceled)
- 12. (original) A glove according to claim 4, wherein the glove has a reduced coefficient of friction compared to the same glove without said outer surface layer treatment.
- 13. (original) A glove according to claim 4, wherein the glove has a coefficient of friction less than about 0.4.
- 14. (original) A glove according to claim 4, wherein the glove has reduced stickiness when compared to the same glove without said outer surface layer treatment.
- 15. (original) A glove according to claim 4, wherein the glove has improved double-donnability as measured by the coefficient of friction when compared to the same glove without said outer surface layer treatment.
- 16-41. (cancelled)
